

INTENSIVE SHAMPOO BEFORE RENOVATION

Information and Technical Support: export@vermillon-deco.com

PRODUCT DESCRIPTION

Soft alkaline cleaner for thorough cleaning of Aqua Varnish.
Adapted only for cleaning before restoration of Aqua Varnish.
Eliminates specks of dirt, remains of waxed-based care products, self-polishing dispersions and glue.

NECESSARY TOOLS

Gloves, bucket, floor cloth, wet vacuum cleaner (depending on the surface)

APPLICATION

First and foremost remove big particles of dirt with a broom or a vacuum cleaner.
Dilute the cleaner with water in the proportion 1 : 5 (for example 750 ml of the cleaner for 3.75 l of water).
Moisten the floor with clean water before using the cleaner.
Spread the solution over the surface and leave for 10 to 20 minutes depending on how dirty the surface is.
Use non-diluted cleaner for areas with stubborn stains.
Remove all the liquid off the floor with your floor cloth or with a wet vacuum cleaner (preferably).
Rinse well with clean water until it is fully neutralized.

NOTE

Do not leave the cleaning solution dry on the floor.
Avoid moistening delicate surfaces (woods, metal, and furniture) with cleaning solution.
Keep you gloves on while working.
Insure sufficient area aeration.

COVERAGE AND PACKAGING

5 litres cans for 100 m²
750 ml cans for 15 m²
Depending on how dirty the surface is, you might need to use a stronger dilution.

RECOMMENDATION AND WARNING

- See the most recent version of this technical specification (see website). Our distributors and technical support are at your disposal for any clarification.
- Performance and durability guarantees for the decorative coating may be given only in case a complete system of MERCADIER products is used (primer, product itself, sealer) and strictly according to instructions for application and maintenance of the system. Thus, the manufacturer will not be liable for poor product's performance if an application did not conform to our instructions and if the integral system was not used.
- All the information, tips and advice relative to final illustration of MERCADIER products are given in good faith. They are based on knowledge and experience that MERCADIER has acquired so far regarding its products that were appropriately stored and handled, and applied in normal conditions. In practice, the differences between materials, surfaces and specific application conditions are such that provided information, written recommendations or given advice do not imply any warranty of merchantability other than the legal warranty against hidden defects.
- Colours and aspects in our colour charts are indicative, and cannot be considered as contractual. The same is applied for boards and panels displayed at retail outlets. It is preferable to use identical samples as much as possible. These products lead to results with subtle differences that can also arise depending on application conditions (applicator's gestures, temperature etc).

SAFETY / PRECAUTIONS

pH value: 10.00 (concentrated)
Components: less than 5% of anionic and non-ionic ten sides. Contains odor agents, limonene, solvents.
Keep it closed in its original packaging in a fresh and dry place. Keep it locked and out of children's reach.
